TT Consulting

T&T CONSULTING

Company

T&T Consulting, a full service hotel business development company, is recognized for its long term business commitment to clients. The company is headquartered in Germany and is represented by a affiliate company Thiele Turizm Danışmanlık in Turkey with it's offices in Istanbul and Antalya. AEB is affiliate company of T&T consulting.

Clients

Our clients are from various sectors and of various sizes, from sole traders and small owner-managed companies, through to multinational organizations and some of Turkey's and international leading companies which all are at the same time tourism investors. We have long term experience in the hospitality and tourism industry. As a medium-sized company we are ideally positioned to serve your needs. Our clients can draw on the national and international experience of our consultants who each have particular knowledge and experience in specialized business disciplines, while retaining the personalized service and approach of a smaller practice that is tailor made but efficient.

Culture Statement

We understand our company as a professional service provider which, on the basis of know-how and the experience of our highly-qualified employees, is dedicated to deliver custom-made services in close cooperation with its clients. We are committed to quality service and are competitive and ambitious.

DND PLUS Electronic Do Not Disturb System

"AN EASY STAND ALONE SOLUTION FOR YOUR GUEST PRIVACY"

Electronic Do Not Disturb System and Make Up Room indicator for your guest rooms in your hotel property.

DND-Plus easy way for guests to show their privacy and service requirements. DND-Plus eliminates doorknob signages and provides a doorbell chime to your guests. With a touch of a button "Do Not Disturb" or "Make-Up Room can be displayed on the outside of the room.

DND-Plus operates stand alone. It has got theree units outside panel, inside panel and electronic control unit. Outside panel easily displays guest privacy and Make-Up requirements. Your guest may push button easily for showing their privacy and Service requirements. You may choose outside panel from our standard collection. Inside and outside panels made by with stainless steel.

You may choose an outside panel with your hotel logo and room number.

MUR (Make-Up Room) is the electronic way to require maid service. DND-Plus System adds up guest comfort and security along with efficient guest room management.

When your guests push DND button there is a red light appear on hall way panel that indicates Do Not Disturb. Door bell is not working when your guests push DND button.

There is door bell on guestroom panel and DND&MUR buttons. Guestroom panel is attractively designed for all kind of interior designs in your guestroom.

DND-Plus can be connect with S-Power energy savers. They are compatible each other and if the client's key card inside the energy saver, there is yellow led is on at outside unit which means "room occuiped"

Custom Made
You may also require a custom made Outside Panels with your own design and shape. Custom made panels requires a special design. Please require a quotation with your special design of your property.

1 What is DND Plus?
DND Plus is newest electronic DND indicator which replace "Do not disturb doorknob hangers. Also DND Plus is an elegant doorbell system for your guest rooms. DND Plus also shows guest's service requirement' (MUR-Make Up Room function) to the hausekeeping staff. It is two pieces one of them illuminated outside unit which shows door numbers also and a bedside unit for your guests.

2 Is DND Plus make a money saving for my hotel?
You do not need to purchase "doorknob hangers" any more and your staff does not need to check them every day.

3 Can DND Plus be install into an existing hotel or only new projects?
Even it is easy to install DND Plus at the new projects it can be also intall to an existing hotel with a low voltage cables. DND Plus components comes pre-wired and needs simple wire systems. A low voltage transformer (comes with DND Plus) can be installed your room's electrical junction box.

4 Can i designed DND Plus with my own hotel logo?
Yes we can make "custom made" outside unit. Inside bed side panel is same for all hotels. You can send us your logo and your own shapes. Of course we have standard collection and you can choose from them also.

5 What is your order procedure?
First you need to send your hotel logo, required style and special requirements. You will receive design of your DND Plus. After your approval we will start to manufacture with your own style

6 Is DND plus improve my hotel's image

a) DND Plus increases your guest's safety&privacy. There is no mistake, with our red light on, your guest does not want to be disturbed! With a simple touch of a button located at the bed side panel of DND Plus. If your guest require service they can esily show this demand to your hotel staff. After DND Plus there is no need to open to doors to hang out a DND sign.

b) DND Plus increases you hotel's vision up to date and modern style.

c) No mistake, It is impossible to say "the doorsign lost, that' why I knock the door". DND Plus eliminates guest complaints regarding their privacy.

d) DND Plus has got two international signs red (DND) and green (MUR) even your guest does not know English. They can easily understand.

DND PLUS Manuel Do Not Disturb System

It is the most simplest way to show your guest's privacy request to you staff.

Wooden Card Holder is at the back of the guestroom door and it keeps the DND-MUR card on it. Your guests will get it and insert to the electronic lock as same as their key cards.

DND-MUR cards is 760 mikron PVC like credit card standards and can be printed with your own hotel logo on it.

AEB Waterproof LCD TV and Mirror TV

The TV is totally wrapped in waterproof shell. The innovative design has combined both elegant and durable engineering to produce a master piece. The LCD TV uses advanced TFT technology with sophisticated anti-water condensation techniques. Since it is waterproof, you can install the TV in a bathroom or anywhere else without being concerned with moisture and water spilling or splashing.

Gone are the concerns about whether your TV will have a short circuit or dusted frame caused by moisture or spilled water. You can relax in your bathtub, blow dry your hair or brush your teeth while having accompanied by this exceptional entertainment unit.

The unit can be also installed in living room, bedroom or any other areas if you so choose. You can also achieve a built in look by fitting the unit in to a stud or solid wall or tile. Enjoy!

This TV incorporates the latest state of the art screens with the latest and best features. It was originally designed to be used just in the bathrooms; however it can be installed in kitchens, swimming pool, garden environments, spas, saunas, and even living rooms. In fact, it can be installed almost anywhere.

This unit features heated screen areas to prevent the front from misting up in humid conditions or even freezing up in cold conditions.

- LCD Screen size: 5" 8" 9.2" 10 "15" 17" 19" 22" 26" 32"
- Waterproof, moisture proof, fog proof
- Full function remote control
- Waterproof remote control
- Sensitive touch screen button, easy for control
- Different color design for choice, f it for different style of rooms
- Heat front panel with low temperature, avoiding the coagulating of fog.
- The back of the unit can be complete hidden in the wall.

- Low voltage DC 12V, be safe for bathroom using
- CCTV input +AV input+ VGA (optional) + S-video input

AEB Teleadapt Connectivity Solutions for the Hospitality Industry

Your guests can take full advantage of their room's TV by accessing this simple connection hub for their laptop, iPod®'A8, MP3, DVD player, Playstation®'A8, Xbox®'A8, digital camera, and digital video camera, turning the hotel room television into a viewing screen.

The sleek MediaHub™'AA bezel comes in a black or silver finish, allowing you to customize it to compliment any hotel room decor.

For today's savvy business traveler the ability to connect a laptop is such a necessity, it's often a deciding factor in choosing a hotel.

Whether traveling for business or pleasure, guests with high definition equipment will appreciate the ability to turn their hotel television into a high definition viewing screen.

This USB (5v) power port provides your guests with a convenient way to recharge cell phones, iPods, iPhones and other portables.

AUDIO / VIDEO   AUDIO / PC   HDMI   POWER (5V)

Connectivity Without Renovation

- The MediaHub is compatible with most hotel room televisions
- All-in-one connectivity panel for all of your guest's electronic devices
- It's easy to install, no costly renovation required
- Sleek, aesthetically pleasing compact design
- Prevents guests from tampering with existing TV connections

- Available in desktop or in-wall models, or specially designed bracket, which suspends the MediaHub directly below the television
- UL and CE certified so it can be employed worldwide
- Elegant five-star aesthetics at an affordable price
- USB charging port for portable electronic devices

MediaHub™ General Specifications

TA-7600S

Passive: Input switching via channels or input button on remote control. Extends most commonly used Audio/Video ports to convenient location. 3.5 m cable sets included.

Ports: Composite Audio/Video, S-Video, Mini Stereo Jack, VGA (RGB), HDMI, USB (5v) power.

Outside Bezel Dimensions: 214 x 84 mm (8.43" x 3.31")

Wall Cut-Out Dimensions: 186 x 70 mm (7.24" x 2.68")

TA-7610S

Active: Auto sensing and switching of inputs. Extends most commonly used Audio/Video ports to convenient location. 3.5 m cable sets included.

Ports: Composite Audio/Video, S-Video, Mini Stereo Jack, VGA (RGB), HDMI, USB (5v) power.

Serial Link: Links to TV or STB serial port. Smartport and RS232 cables included.

Outside Bezel Dimensions: 214 x 84 mm (8.43" x 3.31")

Wall Cut-Out Dimensions: 186 x 70 mm (7.24" x 2.68")

DTH-S01

Desktop Housing: Sold separately for both TA-7600S and TA-7610S, converts wall mount to desktop.

Dimensions: 260 x 90 x 85 mm (10.25" x 4.6" x 3.5")

Wireless Connectivity Solutions

Wireless Connectivity with DeskPoint™
When You're Wired but You Also Need Wireless

The DeskPoint product line is the industry's simplest solution for adding Wi-Fi to existing Ethernet wired rooms. It eliminates the need for the costly retrofitting usually required for wireless. These units can all be web remote managed, which means greatly reduced engineering service calls. Just plug the DeskPoint into an existing Ethernet wall jack to instantly provide multiple Internet access connections throughout the room for guests with Wi-Fi laptops. The DeskPoint also includes a single wired connection for those guests without Wi-Fi, therefore providing both in a single unit.

DeskPoint Retractable TA-6900

Provides wireless access throughout the guestroom, plus a 1.8m (6 ft) retractable slim line cable for guests without Wi-Fi. Can be customized with your property's logo

DeskPoint RJ45 TA-7900

Provides wireless access throughout the guestroom, and an Ethernet connection socket for guests who provide their own cable. Customize this product with your logo as well.

DeskPoint Under Desk TA-8000

For a more hidden option, this compact model mounts under the desk, providing wireless access throughout the room, and an Ethernet connection socket.

Wireless Connectivity with DeskBridge™ When You're Wireless but You Need Wired

What do you do if your property is all wireless, but many of your guests just aren't Wi-Fi enabled? The solution is DeskBridge. This exciting technology works by taking your property's wireless signal, and converting it to an Ethernet cable. It's a simple solution to a once complicated problem.

DeskBridge G TA-6410

Provides a wired connection point for wireless networks by converting the wireless signal to an Ethernet cable. It comes with a retractable 0.8m (2.5 ft) slim line cable, providing simple plug-and-play Internet access for laptops without Wi-Fi technology.

TravelBridge G TA-6450

This unit mounts easily under a table or desktop. It provides a wired connection point for guests without wireless capability by converting the hotel's wireless signal to an Ethernet cable. This product eliminates the need to provide hard wired access points to every room.

AEB Teleadapt Connectivity Solutions for the Hospitality Industry

Wired Connectivity Solutions

Wired Connectivity
Pull-Through™ and Retractable DeskHubs

Our complete line of Pull-Through and Retractable products are designed to provide easy, yet aesthetically pleasing methods for holding an Ethernet cable securely in place on tables or desktops. Instead of guests searching the walls for Internet access, our products provide an instantly recognizable Internet access point. The high visibility, and high tech design of these products make it easy to increase revenue through in-room charges, most guests are happy to pay for such easy access. You'll also reduce engineering service calls for lost, stolen or disconnected cables. The Pull-Throughs work by sliding the Ethernet cable through the holder, allowing the guest to utilize as much or as little cable as needed. Our Retractable models have a retractable slim line cable built in, so it pulls out to connect, and retracts back in place when done. A 1.8m (6 ft) CAT5e Ethernet cable, which connects the unit to the Ethernet wall socket, is included with every unit.

**Pull-Through Pro
TA-7300**

A stylish compact solution to in-room cable management. The unit is weighted so it stays in place when the cable is pulled. This product can be silk-screened with your property's logo.

**Pull-Through Access Point™
TA-6300**

This product offers a low-cost solution to in-room cable placement. It's unique clam shell design allows the cable to slide easily while keeping the unit in place. Front label area can be customized with your property's logo.

**MiniAccess Point™
TA-6100**

Now you can quickly relocate the Ethernet plug-in socket from the wall to the desktop, making the Internet access point easy to find, and even easier for your guests to use.

**DeskSpool™ Pro
TA-7000**

This unique, stylish design offers the same great features as the DeskSpool, but with a longer retractable 1.8 m (6 ft) slim line 80cm Ethernet cable. It is also heavily weighted to insure product stability when being used.

**DeskSpool™
TA-6000**

This product creates an instantly recognizable Ethernet connection point for your guest. It features a retractable 0.8 m (2 ft) slim line 80cm Ethernet cable, which retracts back when the guest is finished. Special security features make theft extremely difficult.

Retail Products

Every hotel guest knows the frustration of arriving at their destination to find they haven't packed some needed accessories for their electronic devices. Maybe it's a cable, or a USB drive, or even their digital camera. Now you can be a hero, and provide an additional revenue stream for your hotel at the same time. TeleAdapt offers a wide range of connectivity accessories for the laptop, PDA or mobile phone user. Ideal for sale through the mini-bar, room service or from the concierge, our products have proven to be a popular answer to an on-going guest problem. We can even customize our product packaging, and many of the actual products, to feature your logo and property branding, providing a product line uniquely yours.

Power Connectivity

Today's hotel guests arrive with every type of electronic device imaginable, and guess what? They need a place to plug them in. They need power sockets, audio jacks, and data connections, and they don't want to have to search for them. Today's hotels need a practical solution for their power and data needs. TeleAdapt's PowerHub™'AA line has just the solution, and without costly renovation. Choose from our stylish desktop models, including the Affinity, which mounts flush with the desktop and closes when not in use, providing more desk space and a cleaner look. Maybe you're looking for something completely out of sight, if so, our under the desk mount Conti is just the choice. Best of all, you choose the power and data outlet configuration that works best for you and your guests.
